

PERMATECH® Filter Bowls

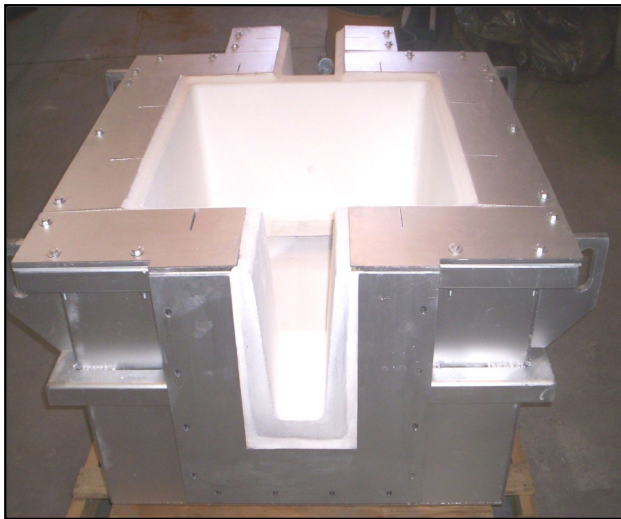

Filter Bowl Systems

The Permotech Engineering Services Team is an industry leader in engineering the utilization of refractory shapes for aluminum Ceramic Foam Filter Bowl Systems.

Permotech has the necessary design, engineering and manufacturing expertise to build a Ceramic Foam Filter Bowl System that will conform to the specific filter bowl assembly desired. Any size, shape or configuration is possible for a turnkey solution.

PERMATECH® ADVANTAGE

- Evaluation of filtration requirements
- Refractory liners
- Complete heating systems
- Steel shell assemblies
- Complete turnkey solutions
- Engineering & design of complete system

ENGINEERED FOR
MAXIMUM PRODUCTIVITY

PERMATECH®

SHAPING THE FUTURE OF REFRACTORY TECHNOLOGY
