

PERMATECH® Metal Systems

Molten Metal Holding & Melting

The Permotech Engineering Service Team is an industry leader in engineering the utilization of large refractory shapes for aluminum melting and holding systems.

Permotech has the necessary design, engineering and manufacturing expertise to build Molten Metal Vessels that will conform to any specific process desired. Any size, shape or configuration is possible.

PERMATECH® ADVANTAGE

- Refractory liners
- Insulation
- Material specification
- Engineering, design and drawings of complete system
- Baffle systems
- Heating systems
- Complete construction

ENGINEERED FOR
MAXIMUM PRODUCTIVITY

PERMATECH®

SHAPING THE FUTURE OF REFRACTORY TECHNOLOGY
