

# PERMATECH® Small Parts

---

Permatech has the necessary design, engineering and manufacturing expertise to produce precision cast Thimbles, Transition Plates and Table-Top Troughing to conform to your specific needs.

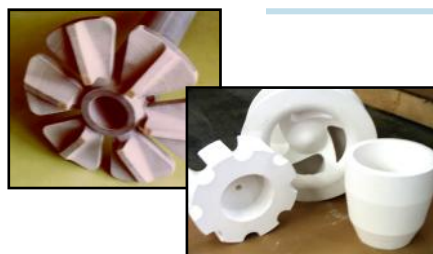

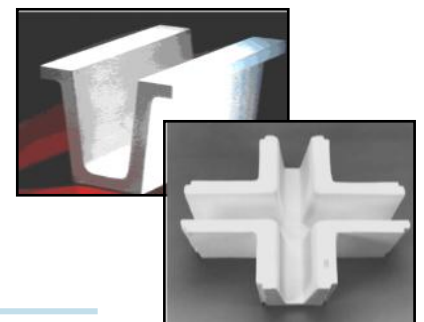

Spouts, Flow Rods, Collars and Skim Dams are a part of Permatech's line of precision cast small parts.

Permatech manufactures a comprehensive range of items such as Crucibles, Ladles, Pouring Spouts, Launders, Tundishes, Shot Sleeves and other parts for the Aluminum Foundry and Die Casting industry.

Permatech engineers and manufactures Troughing (Launder) Systems in a variety of size, shapes and configurations to conform to the specific needs of its clients.

Permatech is synonymous with Precast Shapes. Virtually any shape is possible regardless of size, shape or geometry. Our philosophy is that if a shape can be drawn, it can be made well and to the required dimensions.
