

PERMATECH® Troughs Systems

Table Top Trough Systems

The Permotech Engineering Services Team is a leader in engineering the utilization of refractory shapes for aluminum Table Top Troughing Systems.

Permotech has the necessary design, engineering and manufacturing expertise to produce a complete reline for your Table Top Trough System that will conform to the specific assembly desired.

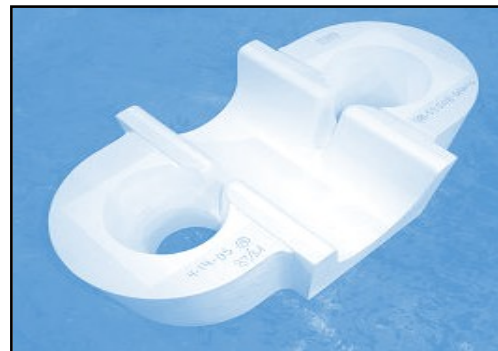

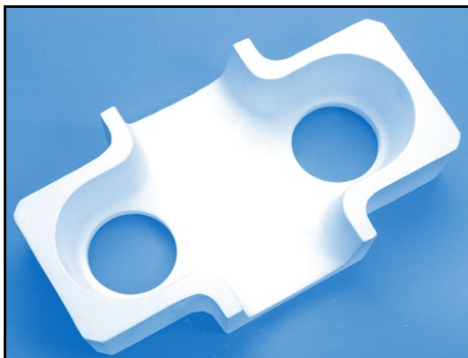

Permotech also produces precision-cast transition-plates, thimbles and one-piece transition plate / thimble combination units for the billet casting process.

PERMATECH® ADVANTAGE

- Evaluation of troughing requirements
- Engineering & Design of complete insulation
- Complete construction

ENGINEERED FOR MAXIMUM PRODUCTIVITY

PERMATECH®

SHAPING THE FUTURE OF REFRACTORY TECHNOLOGY
