

PERMATECH® Trough Systems

Turnkey Launder Systems

The Permotech Engineering Services Team is a leader in engineering the utilization of refractory shapes for aluminum Troughing Systems.

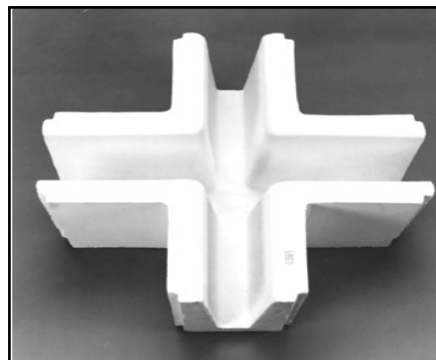

Regardless if you are expanding your casthouse or implementing a new installation, Permotech can provide a turnkey, quality system designed by our experienced design team. From the initial design to final installation, Permotech has the support you need, from in-house casting to steelwork manufacturing to creating a system that is right for you.

PERMATECH® ADVANTAGE

- Smooth transition from one profile to another
- Customized steelwork and refractory are available
- Can match dimensions of existing equipment
- Launder covers and heating elements available

ENGINEERED FOR
MAXIMUM PRODUCTIVITY

PERMATECH®

SHAPING THE FUTURE OF REFRACTORY TECHNOLOGY
